

13 Nov

DDA 86-1931  
14 November 1986

**MEMORANDUM FOR:** Director of Central Intelligence

**FROM:** William F. Donnelly  
Deputy Director for Administration

**SUBJECT:** Weekly Report for Period Ending 14 November 1986

1. The Office of Information Technology (OIT) briefed representatives of MI-6 on OIT's domestic communications systems. The British officials showed particular interest in the Wang Alliance Intelligent Communications Terminal document transfer capability.

3. OIT has scheduled the first demonstration of vendor-supplied software for the Executive Decision Support System (EDSS) in early December. This software will enable senior executives to obtain summarized data in tabular or graphic formats on Agency activities.

7. OC has arranged with the the Directorate of Science and Technology (DS&T) for new OC engineers to participate in DS&T technical orientation courses.

8. Agency recruiters have faced two student protests this month. On 5 November approximately 15 Temple University students protested the appearance on their campus of our Washington Area Recruiter by conducting a sit-in at the school's placement center. A reporter from the "Philadelphia Inquirer" was also present. After more than two hours of increasing agitation, and at the suggestion of the school's placement director, our recruiter withdrew. Two days later approximately 20 students protested Agency recruitment at the placement center at the University of Texas, Austin. The number of students eventually dwindled to six, however, and our recruiters were able to complete all scheduled interviews.

9. Office of Personnel representatives briefed staffers of House Permanent Select Committee on Intelligence (HPSCI) and the Senate Select Committee on Intelligence on the progress made thus far in setting up internal administration for all retirement systems within the Agency. Mike O'Neil, HPSCI Chief Counsel, was most appreciative and thanked the Agency for taking such an initiative. To help the staffers better understand the impact of the new retirement systems on the Agency, we plan to provide them video on the Federal Employees Retirement System (FERS) and the FERS Special Category as well as several of the Employee Bulletins on the new systems.

10. On 7 November 1986, Mr. Carl Meyer from Merrill Lynch presented the seventh Financial Management Seminar entitled "Credit Management." The seminar, which included a lively question and answer period, was videotaped for others to see. Mr. Meyer was impressed with the Agency's interest in assisting our employees to manage credit properly. He left the Agency with a very positive outlook.

11. The Agency's Combined Federal Campaign is well underway. To date, 20 percent of our employees have returned their campaign cards, and we have \$131,000 (29 percent) towards this year's goal of \$450,000. Thus far, our returns are slightly ahead of what they were at this point in last year's campaign.

12. At the request of HPSCI, Security Officers visited the HPSCI hearing room in the Capitol to determine the feasibility of installing RF shielding. The Office of Security (OS) determined that the installation can be accomplished and they will provide recommendations to HPSCI.

15. OL reports that efforts are continuing on the part of Hitt Contracting Company to obtain a permit from Fairfax County to do the fixturization of Section 1 of [redacted] Logistics Operations Center, in support of the Plain Text Processing Equipment Program. Most issues have been resolved and limited construction is underway. Construction of the final two sections of [redacted] is targeted for completion in June or July of 1987.

16. The Office of Information Services (OIS) has prepared the Agency's report on the number of classified documents estimated to have been created during fiscal year 1986. The report will be incorporated into a government-wide report to the President.

17. OIS and National Security Council representatives are reviewing the classification of documents from the files of Operation MONGOOSE, a post-Bay of Pigs operation that came under Congressional investigation in 1975. There are several pending court cases involving public access to these documents.

18. The backlog of initial FOIA/PA cases stands at 1232. This compares with a backlog of 1814 one year ago and 3029 two years ago.
